ROMAN HEUSER

BUSINESS STUDENT · FOUNDER · FRONTEND DESIGNER

Las Vegas, NV · Reno, NV · 702-885-9747 · heuser@romanattitudeofgratitude.com

SUMMARY

Business student at the University of Nevada, Reno who builds and ships software outside of class. Founder of two live products, hired by a funded startup to lead its frontend redesign, and three years of customer-facing work in restaurants, valet and a service business of my own.

EDUCATION

University of Nevada, Reno — EXPECTED ((2030))

B.S., Business Administration — Freshman

EXPERIENCE

Frontend Design Lead — TagData — ((START)) – PRESENT

Consumer data-privacy startup · $3.5M invested

- Hired to recreate the product's frontend and given full authority over the redesign.
- Built a token-driven design system so every surface resolves to one source of truth for color, type, spacing and motion, replacing a set of one-off screens.
- Designed and implemented the TagData ID share-card flow across eight data domains in Next.js, React and Tailwind CSS.

Valet Attendant — Nevada Premier Valet — AUG 2026 – PRESENT

Las Vegas, NV

- Park and retrieve guest vehicles at high-volume venues, responsible for customer property and keys throughout each shift.
- Work the guest handoff directly — greeting, ticketing and return — under time pressure at peak arrival and departure.

Owner & Operator — Pressure Washing Service — ((2025)) – PRESENT

Self-employed · Las Vegas, NV

- Run a seasonal exterior-cleaning business serving homeowners preparing properties for inspection and sale.
- Source the work, quote the job, schedule around inspection deadlines, and handle the equipment and billing myself.

Grill Cook — Lee Canyon — SUMMER ((2026))

Mount Charleston, NV · seasonal mountain resort

- Cooked to order on a high-volume grill line through peak lunch service at a mountain resort food operation.
- Held food-safety and ticket-time standards during rushes driven by unpredictable visitor volume.

Restaurant Team Member — Maggiano's Little Italy — ((2025)) – DEC 2025

Las Vegas, NV

- Nine months in a full-service, high-cover Italian restaurant, working directly with guests through dinner service.

PROJECTS

GoMojo — Founder — ((START)) – PRESENT

AI concierge web application for Las Vegas

- Built a consumer web app that turns a stated vibe and budget into a complete three-stop night out with real venues, times and costs.
- Designed a seven-agent AI system that evaluates budget, distance, timing, saved favorites and live events before returning a plan.
- Delivered the entire platform — app, AI layer and multi-city architecture — for under $1,000 in total cost.

GoInvest — Builder — ((START)) – PRESENT

Multi-agent investment research sandbox

- Built a Python and FastAPI system where eight AI investor personas debate a security, vote, and produce a sized position, with every debate logged.
- Constrained the system to paper trading only, with every user-facing surface labeled educational and not investment advice.

SKILLS

Business	Customer service, scheduling & quoting, cash handling, working under deadline
Software	JavaScript/TypeScript, React, Next.js, Python, C#/.NET, SQL, HTML/CSS
Data & AI	Microsoft Excel, PostgreSQL, prompt engineering, multi-agent system design
Tools	Git, WordPress, Stripe, Figma, Tailwind CSS
